

SKILL SET

Proficient in Adobe Design Suite, QuarkXPress, After Effects, Dreamweaver, Microsoft Office Suite, Digital Photography, Screen Printing and Print Production.

My goal is to communicate the unity between typography and the use of original illustration and photography through digital and traditional mediums. The years as an oil painter has played a substantial role in shaping my skills as a professional photographer and designer. As a freelancer, I seek out projects that are outside my understanding, enabling me to readily adapt using new sets of skills, including screen printing or web design. Working for one of Philadelphia's most prestigious advertising agencies has given me a foundation to grow as a professional, while also funding my aspirations of becoming something greater.

EXPERIENCE

THE STAR GROUP | Philadelphia, PA (2008–present)
